

Hello everyone!

I love hearing from you and seeing what you are all up to, you are doing a great job being Stay at Home Superheroes!

I had my Sports Day races with my friends - who do you think is the fastest?

I helped Mrs Ainslie to sort our rubbish for recycling and put it in the right bin.

Mrs Ainslie says recycling is good for our planet and that got me thinking about ways I can help our planet, like:

1. Turning off the taps when I brush my teeth.

2. Switching the lights off when I leave a room.

Can you think of any more ways to look after our planet?

We sat in our garden, listening and looking up into the trees for birds. They were making lots of different sounds!

I helped Mrs Ainslie to cook a curry for our tea. We needed to use the scales to weigh out the ingredients. The rice was very heavy but the mushrooms were light!

I watched your lovely video to all of the school staff, Mrs Ainslie and I both loved seeing your faces. We are missing you lots, but we know we will all be together again when we can. Until then, stay safe and keep smiling!

Lots of love,

Bearemy
