

Boris Bug's things to do

- Catch a worm and look at it carefully through a magnifying glass. Draw a picture of it.
- Write a letter from a worm to a gardener, explaining how useful you are in a garden.
- Make a zigzag book about worms.

How do you know which end of a worm is the head?

Coco Caterpillar's cartoon corner

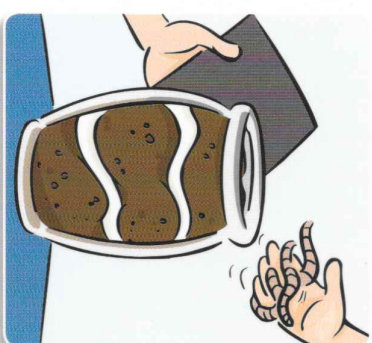

Make a wormery!

You will need:

- a large glass jar
- damp soil
- with a lid
- leaves
- (or clear plastic box)
- a small spoon of plain flour
- black paper
- tape or string
- some live worms
- a trowel or spoon
- water

Instructions:

1. Wrap black paper around the sides of your jar. Use tape or string.
2. Put some soil in the jar and add some leaves.
3. Add more soil. Then add a thin layer of plain flour.
4. Add two more layers of leaves and soil.
5. Add another thin layer of flour and finish with soil.
6. Put your worms on top and sprinkle them with water.
7. Make some holes in the lid of the jar and put it on.
8. Keep the jar somewhere dark, but not too hot.
9. After two days, take off the paper. Look for the worms through the glass.

Tickle its middle and see which end laughs.

Key words

bird	muscle
body	soil
cast	tunnel
head	underground
mole	worm
