

Boris Bug's things to do

- Make a model butterfly garden, using a shoebox. Paint a background of hills and trees or a garden on to the inside of the box. Paint and cut out trees, flowers and bushes from card and stand them up on the floor of the box. Paint and cut out butterflies and hang them on cotton strings stretched across the box.

Make a book about butterflies

You could put these things in the book:

- a picture of a butterfly with labels on the different parts;
- a diagram showing how the butterfly grows from an egg;
- pictures of some common butterflies and their names.

Your book could have a glossary. The glossary could explain words like **antennae**, **caterpillar**, **nectar** and **pupa**.

Sid Spider's things to find out

Find out about the **monarch butterfly**.

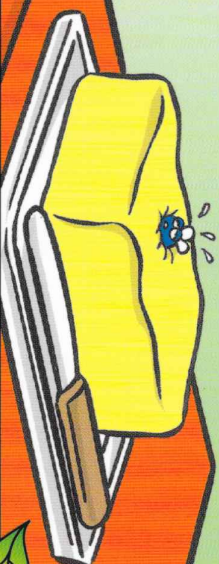

Find out some differences between **butterflies** and **moths**.

What are you doing in there?

I wanted to be a butter fly.

Coco Caterpillar's cartoon corner

Key words

antennae	flower
butterfly	insect
caterpillar	nectar
change	pupa
egg	wing
